SUMMARY

Eight years programming MO:DCA to IPDS software conversion; exposure to Agile/Scrum/TDD

COMPUTER SKILLS

Languages

- Expert in: C
- Familiar with: C# .NET, SQL

Software

- Quality: Purify, NUnit
 - Platforms: UNIX, Visual Studio Express 2005
-

EXPERIENCE

Crew Leader Assistant 2010
US Census Bureau (Fargo, North Dakota)

- Proofread forms submitted by enumerators
- Provided communication channel between enumerators and crew leader

Programmer Analyst 2006-2009
IBM Printing Systems (now InfoPrint Solutions) [NOTE: 2006-2007 via CTG, Inc.]

- Prevented the loss of three major customers by identifying a 20 year-old design defect
- Participated in an early trial of Scrum methodology within InfoPrint Solutions
- Implemented MO:DCA to IPDS conversion for Color Management Resources
- Represented InfoPrint Manager product in AFP architecture reviews
- Provided Level 3 customer service and code maintenance for MO:DCA to IPDS conversion
- Provided AFP consultation to testers, field representatives and technical writers
- Updated ISO 9001 quality records for data stream conversion process in InfoPrint Manager

Owner 2003-2005
Highway 12 Minigolf (Lemmon, South Dakota)

- Managed renovation of a dilapidated gas station into a fun center, using local contractors
- Hired employees, filing required forms and handling payroll on Excel spreadsheets

Programmer Analyst 1997-2002
IBM Printing Systems (Boulder, Colorado)

- Implemented a tool that rearranges AFP for post-processing by cutting and stacking equipment
 - Implemented a tool that reformats inefficient AFP into an equivalent data stream, preventing destructive hard stops of the paper feed due to data starvation at a high-speed printer
 - Successfully applied for seven U.S. patents
-

EDUCATION

American Health Information Management Association CCA, 2009
Colorado State University MBA, 2005
